

# FREE\* Services to Support NH Child Care Programs

## The NH Preschool Technical Assistance Network (PTAN)

is a grant-funded project affiliated with the Pyramid Model Consortium.

Our primary goals are to prevent suspension and expulsion of children with challenging behaviors AND promote teacher retention through individualized consultation and training grounded in Pyramid Model evidence-based practices that support the successful inclusion of ALL children.

## How can we help?

PTAN consultants, trainers and coaches are qualified and caring individuals who are familiar with NH early care and education programs.

Services are individualized to meet each program's needs and can be provided in-person and virtually.

## Give us a call!

PTAN consultation is a professional development activity. Participation is voluntary.

Consultation is most successful when the participating teacher is open to examining, and potentially changing their practices
